Course Overview Structure

Phase 1: Foundation

Hacking ki shuruat basic Linux command line, network architectures aur system settings ki behtareen samjh se hoti hai.

Phase 2: Attacks

Real-world simulation attacks, websites testing, Wi-Fi vulnerability spotting aur live labs setup explore karna.

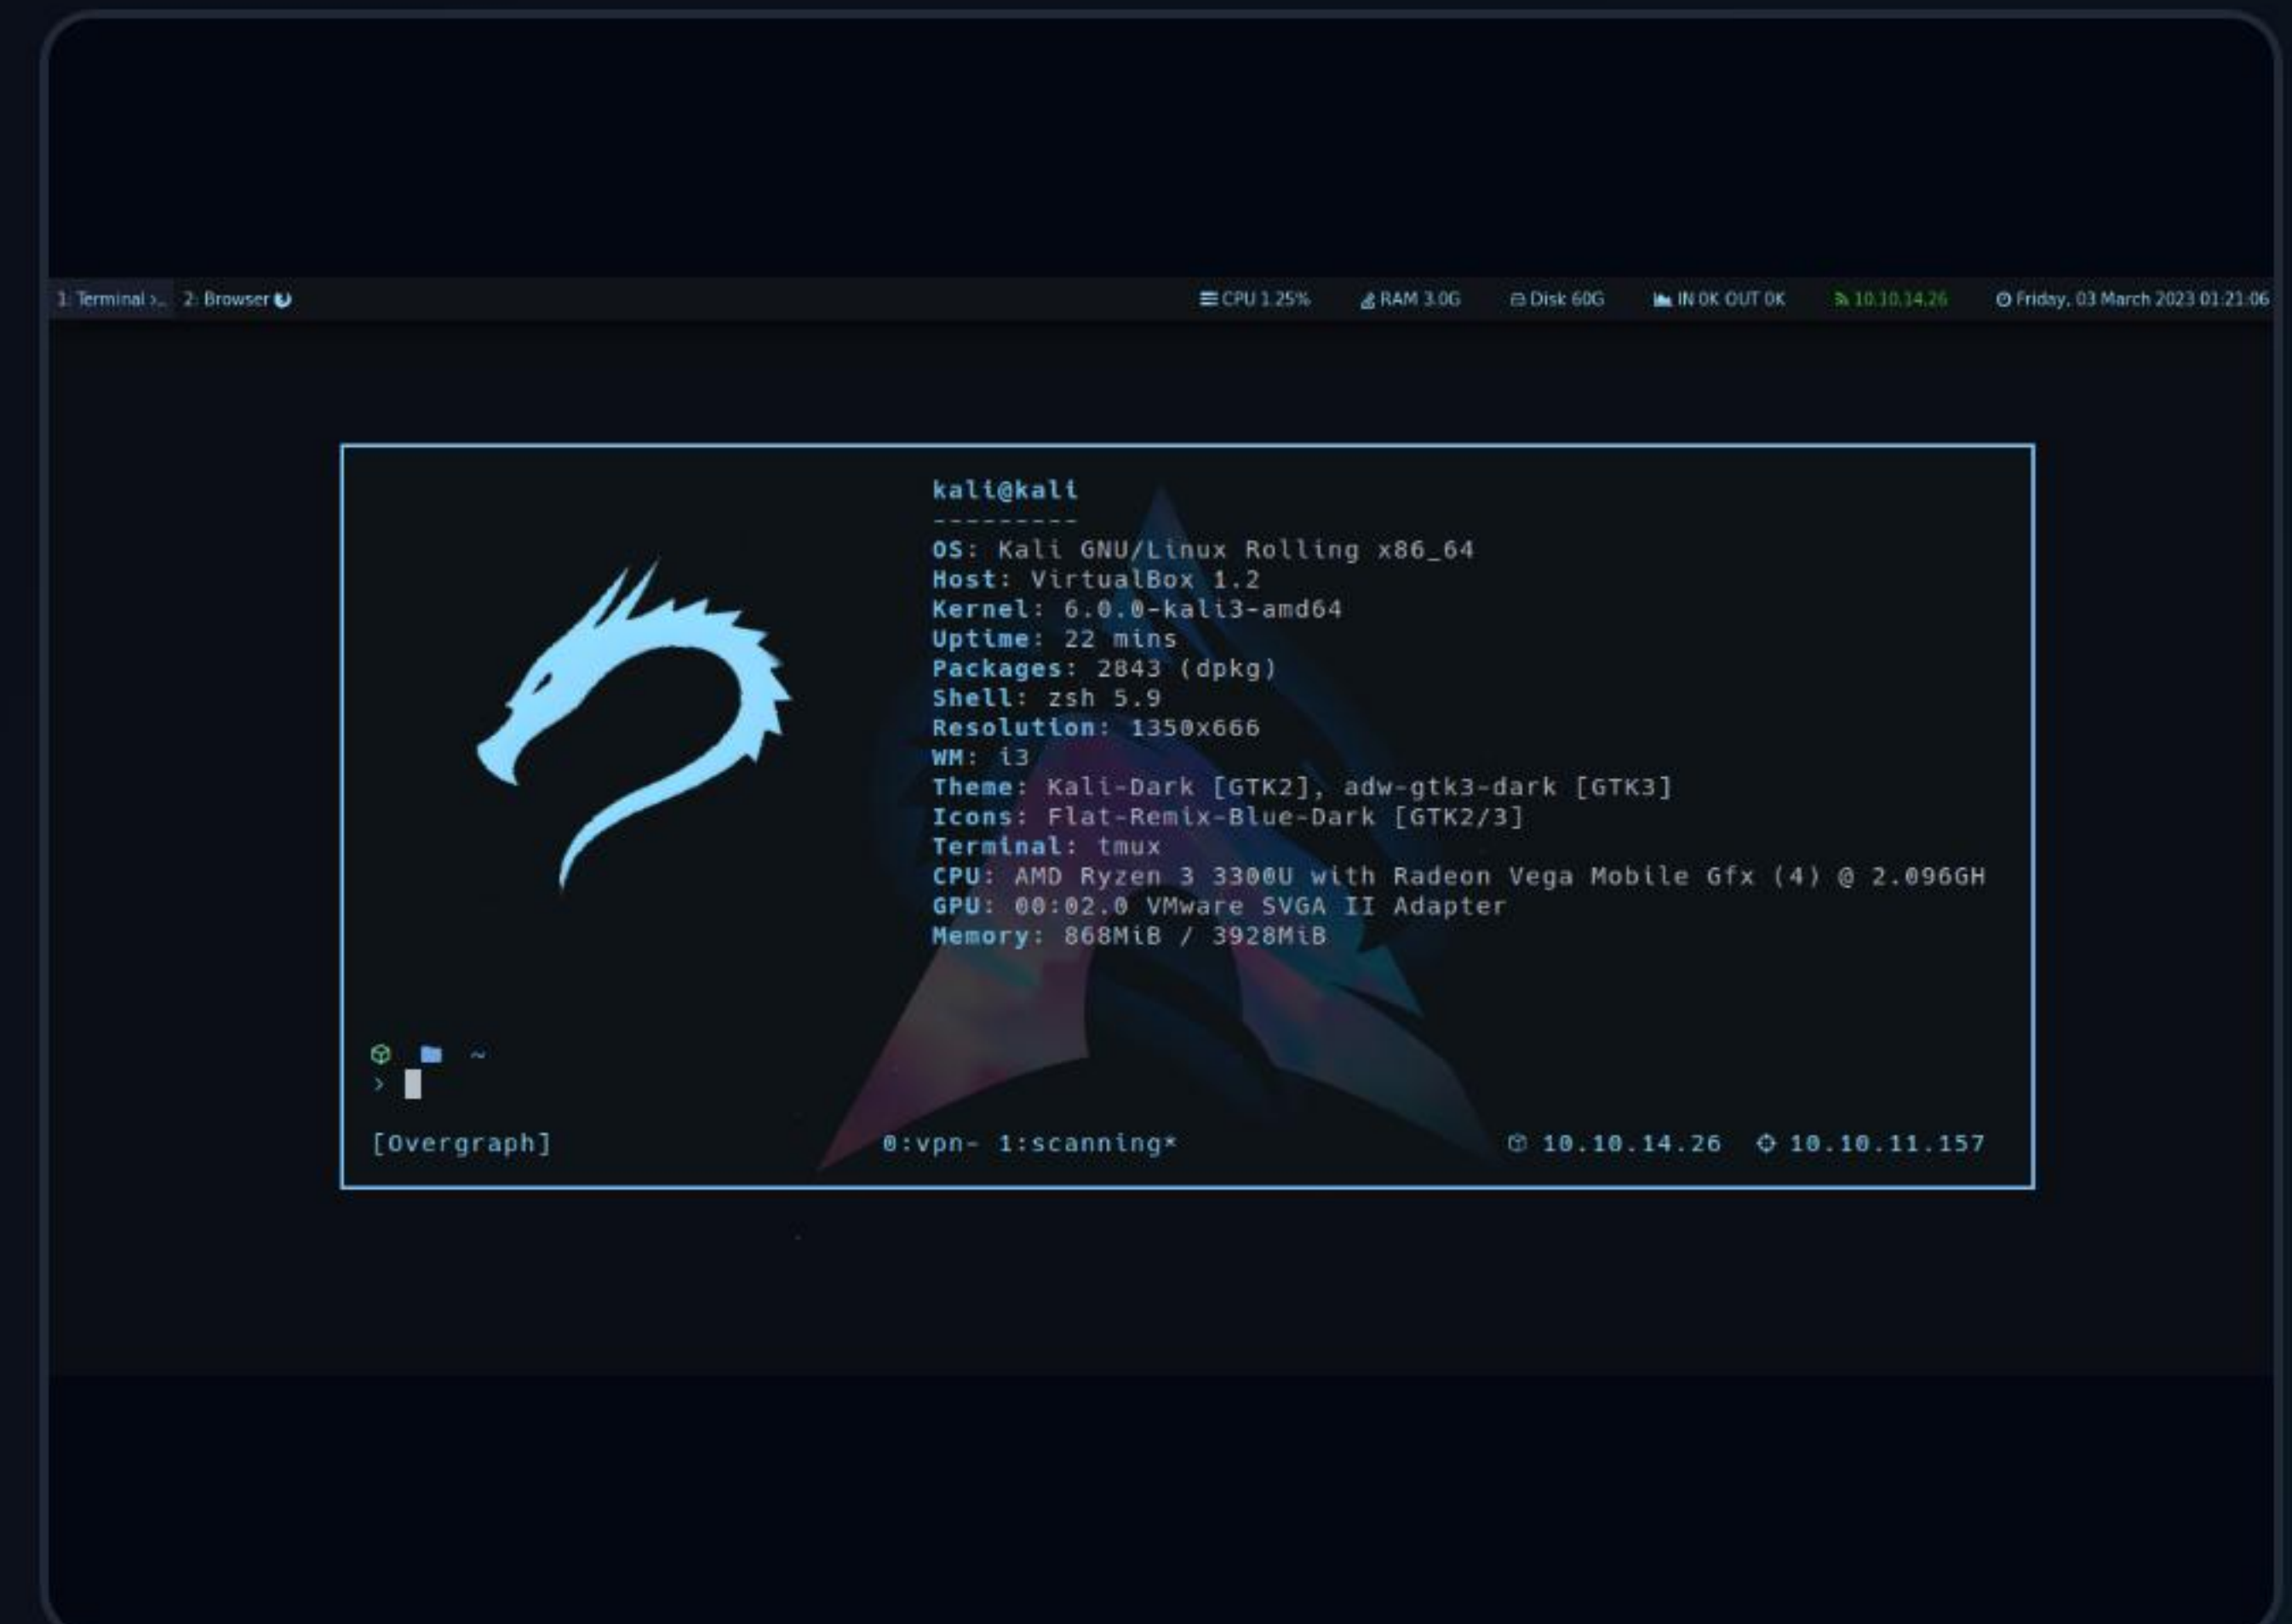

Phase 3: Pro Defense

Security flaws ko dhoond kar reward kamaen, certified auditing methodology aur corporate protection guidelines seekhein.

Phase 1: Zero Se Shuruat

The Hacking Fundamentals

- ⚡ **Linux & Kali Setup:** Operating system ko configure karna seekhein aur commands par control hasil karein.
- ⚡ **Network Anatomy:** IP addressing, Ports, protocols aur data packets transfer ko gehrai se samjhein.
- ⚡ **Information Gathering:** Passive aur active footprinting se target website ki legal information nikalen.

Phase 2: Vulnerability Exploitation

Network & System Attacks

System penetration testing aur network monitoring se shuru karein:

-  WiFi vulnerability mapping aur key handshakes analysis.
-  Passive network traffic interception aur packet analysis methods.

Web App Exploitation

Vulnerable web projects par standard standard tests run karein:

-  OWASP TOP 10 ki SQL injection aur Cross site scripting flaws check karna.
-  Web frameworks aur backend servers configuration weaknesses audit.

Phase 3: Legal Career

Elite Level Pen-Testing

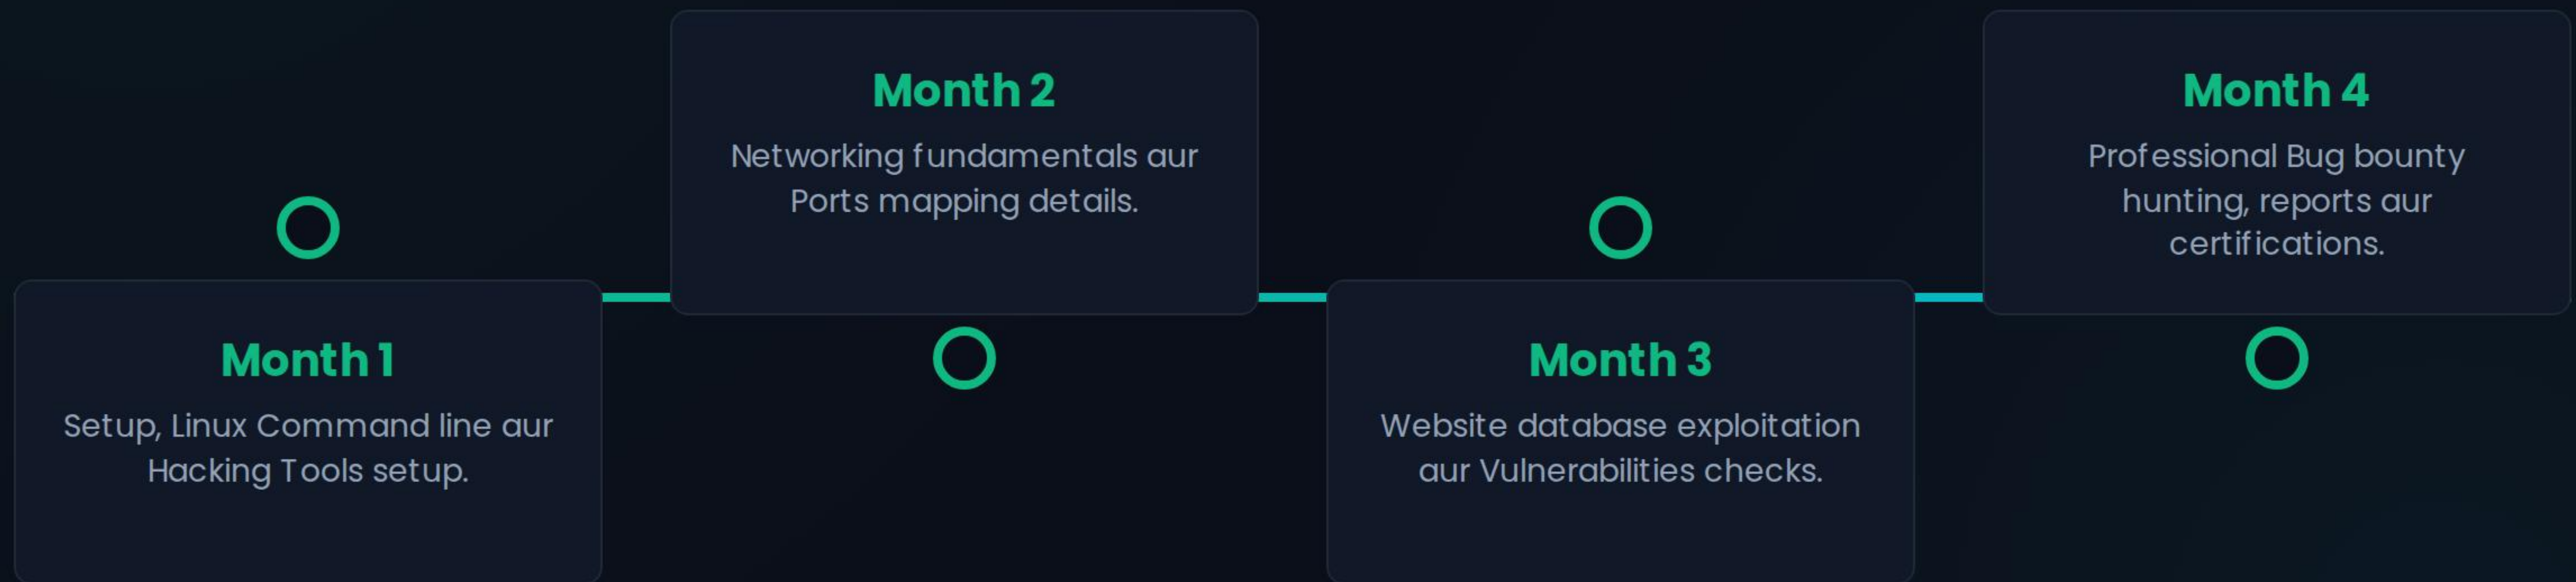

Is part mein hum advance levels cover karenge jo direct cyber defense system par base karenge:
